Summary

Looking for a remote full time job or contract work/c2c as a Full Stack Developer with focus mostly on Front-end. I am a highly self motivated individual, dedicated and detail-oriented. Over the past years I have done remote projects for clients inside a Digital agency, consulted for a startup, and collaborated with talented people to create digital products for both business and consumer use.

Work Experience

MASTERMIND.COM | FULL STACK DEVELOPER

Remote

Mastermind.com, created in partnership by Dean Graziosi and Tony Robbins, is the #1 online platform for people who are looking to market and monetize their knowledge base.

Dec. 2022 - Feb. 2023

- Worked hand in hand with the CTO on various internal projects related to the growth of Mastermind.com's technologies.
- Took complete, end-to-end ownership of projects across the entire Full stack development process.
- Developed front-end website architecture and design user interactions on web pages utilizing React components and Tailwind CSS for styling.
- Develop and design RESTful API services in adherence to best practices and standards.
- Ensure that non-functional requirements such as security, performance, maintainability, scalability, usability, and reliability were being considered when architecting solutions. An example of security was utilizing bcrypt for encryption of users data on forms.

REDIFY, INC (STARTUP) | CHIEF TECHNOLOGY OFFICER AND SENIOR WEB DEVELOPER

Remote

Redify is a new app that allows users to protect themselves and their families by identifying toxic ingredients in everyday products and presenting cleaner alternatives.

Aug. 2021 - Dec. 2022

- Led the tech team on the task to create a React Native app that was successfully launched in 2021.
- Formulated a vision for how technology will be utilized within the company, i.e. branding.
- Organize and coordinate Redify's social media presence to drive brand awareness.

DREW ROBERTS DIGITAL | FULL STACK DEVELOPER

Remote

A tech agency tailored to developing web apps utilizing the latest technologies.

Sep. 2019 - Nov. 2022

- Remote contract work for clients utilizing technologies like React, Next, Gatsby, Node, WordPress, and Laravel.
- Build from beginning to end e-commerce platforms and business landing pages.

DOMINION ENERGY | NETWORK PROGRAMMER ANALYST

Richmond, VA

Dominion Energy operates in 16 states across the U.S., offering clean, safe, reliable, and affordable energy to more than 7 million customers.

Sep. 2015 - Aug. 2021

- Managed DNS, created and managed python automation scripts, configured routers and switches.
- On call rotation to analyze and monitor network performance, provide network support, and resolve connectivity issues.

Education

Liberty University

Lynchburg, VA

Bachelor's Degree - Information Technology - Web and Mobile Programming

2014 - 2018

University of Richmond

Richmond, VA

Full Stack Web Developer Certificate

2017 - 2018

- Curriculum included JavaScript, HTML, CSS, Java, jQuery, responsive design, Bootstrap, handlebars, browser cookies, React.js, Firebase, Heroku, Git, MySQL, MongoDB, MERN Stack, and Node.js.

Projects

Please visit my personal portfolio website to see some of these projects live

Coaching Academy and Stripe Charging

Mastermind.com

FULL STACK DEVELOPER

- Utilize React.js, Next.js, Node.js, JavaScript, MySQL, HubSpot, Git for two web applications: 1. An e-learning platform (coaching academy) used by over 200 students. 2. A stripe charging app the coaches use internally to process payments on new students.

Redify React Native App

Redify, inc

CTO/ SENIOR WEB DEVELOPER

- Utilize React Native, Redux, Express, Babel, Jest, API, MySQL, and Socket.io to lead a team of talented developers that successfully launched an app in 2021.

The Drafting Shoppe

Drew Roberts Digital

FULL STACK DEVELOPER

- Utilize Node.js, React, Redux, Express, Babel, Webpack 4, MongoDB, Nginx, and Cloudflare to build and launch a Progressive eCommerce web app for a client. Had to migrate over 5,000 clip arts from a MySQL database to a MongoDB format. Ecommerce platform has features like: products, inventory and stock management, dashboard for owner to add, modify, and delete products, payment gateways, passwordless authentication via access tokens, and server-side rendering.

Dnsnow+

Dominon Energy

NETWORK PROGRAMMER ANALYST

- Migrated an old app built with PERL to new web application utilizing Python, Dash, and Infoblox WAPI.
